PALMIGES PLUS

Palmitoylethanolamide 600 mg, Genistein 4 mg, Daidzein 50 mg Tablets

Description

- ❖ PALMIGES PLUS counters the condition of Inflammation in Neuropathic Pain resulting in lowering/ alleviating the symptoms of chronic Pain.
- ❖ PALMIGES PLUS is a composed of PEA, Genistein and Daidzein manufactured in accordance with MPFAITECH technology.

Indications

Chronic Pain	Neuropathic Pain	Diabetic Neuropathy	Sciatic Pain & Nerve compression pain	Fibromyalgia	Trigeminal Neuralgia	Migraine
--------------	------------------	---------------------	---------------------------------------	--------------	----------------------	----------

PALMIGES PLUS contains the following components

❖ PALMITOYLETHANOLAMIDE (PEA)

- Palmitoylethanolamide (PEA) is considered an endogenous peroxisome proliferator-activated receptor (PPAR) - agonist or activator, interacting with this receptor to inhibit inflammatory pathways & oxidative stress.
- It stops the overactivation of mast cells and phosphorylation of kinases leading to anti-inflammatory action.

❖ GENISTEIN

- Genistein, is a Fatty acid amide hydrolase (FAAH) Inhibitor that prevents the degradation of PEA from FAAH enzyme in the body & also exerts a synergistic effect with PEA to reduce oxidative stress in the over-inflamed neuronal cells.

❖ DAIDZEIN

- Daidzein belongs to the class of isoflavones and serves as a potent FAAH Inhibitor in conjunction with Genistein. It works as a competitive binder to FAAH disallowing it to degrade the externally supplemented PEA.

❖ MPFAITECH

- A Technology to ensure the proprietary blend is presented in a form that could be easily absorbed into the human body.

Dosage

The standard recommended daily dose of PALMIGES PLUS is one tablet per day or as prescribed by the Medical Practitioner

Presentation

It is available as a strip of 15 tablets.
